FEMIN B J

Trivandrum, India | 9789660323 | feminbj3@gmail.com

PROFESSIONAL SUMMARY

Data-focused cloud engineer with 2+ years of experience supporting mission-critical financial and healthcare applications across Azure, GCP and AWS. Strong in Python and SQL, with hands-on experience building data extraction, processing, storage and reporting automations that improved customer productivity by 34%. Skilled at turning ambiguous issues into clear problem statements, tracing data and system problems to root causes, and communicating findings to client and technical stakeholders. Maintained 100% SLA compliance for 4 financial applications. Certified in Azure (AZ-104, AI-102) and Gemini Enterprise Agent Development, with a growing interest in AI and analytics for Banking and Financial Services.

TECHNICAL SKILLS

- **Programming and Data Management:** Python, SQL, data extraction and cleansing, data validation, CSV/reporting pipelines, data quality and consistency checks
- **Analytics and Reporting:** Operational data analysis, trend and pattern identification, report automation, client reporting and documentation
- **AI and Automation:** Gemini Enterprise agent development, Azure AI Engineer (AI-102) knowledge, Python automation
- **Cloud Platforms:** Microsoft Azure, Google Cloud Platform (GCP), Amazon Web Services (AWS)
- **Engineering Practices:** Terraform (IaC), CI/CD pipelines (Azure DevOps), Docker, Kubernetes, Linux, ServiceNow
- **Professional Skills:** Stakeholder communication, root cause analysis, cross-functional collaboration, ownership, documentation

WORK EXPERIENCE

Quantiphi - Platform Support Engineer | June 2026 - Present | Trivandrum *Healthcare industry (Client: Bayer)*

- Support and troubleshoot a production queue of 6 applications, most of them business-critical, finding root causes from logs, errors and system events.
- Automate GCP infrastructure provisioning with Terraform, turning manual steps into repeatable, version-controlled code and improving consistency and auditability.
- Run security checks and configuration reviews on GCP resources to reduce risk and support compliance requirements.
- Work with client, development and platform teams to prioritise issues, share findings and give regular technical updates.
- Resolve platform-specific issues on a ThingWorx-based IoT application; completed a 4-day professional ThingWorx workshop.
- Maintain documentation and operational runbooks for the application queue.

Tata Consultancy Services (TCS) - Technical Support Engineer, Cloud Production Support (Azure) | Jan 2025 - June 2026 | Trivandrum *Client: EY*

- Owned end-to-end resolution of technical issues for 4 mission-critical financial applications, protecting business continuity and customer satisfaction.
- Performed root cause analysis using logs, alerts, metrics and performance traces across Azure compute, storage, networking and application performance.
- Maintained 100% SLA compliance by resolving incidents within agreed timelines with minimal production impact.
- Worked with Dev, QA, Infra, Security and vendor teams to diagnose problems and improve reliability.
- Implemented backup and disaster recovery solutions and optimised cloud resources; documented resolutions to improve platform stability and support efficiency.

Automation and Data Solutions (Python / SQL) | Sep 2024 - Dec 2025 | TCS, Trivandrum

- Built an end-to-end Python solution that extracts financial data from Yahoo Finance, cleans and processes it, stores it in SQL, generates CSV reports and emails them automatically, replacing a manual workflow.
- Resolved data inconsistencies to make outputs reliable, improving customer productivity by 34%.
- Documented the solution for smooth handover and future enhancements.

PROJECTS

- **Terraform on AWS (personal):** Provisioned EC2 instances using AMI data sources and count-based resource configuration.
- **Drivemo:** Emergency indicator system, selected Best Project among 23 teams.

EDUCATION

- B.E., Electrical and Electronics Engineering, Loyola-ICAM College of Engineering & Technology, Chennai | CGPA 8.76/10 | Nov 2020 - May 2024
- 12th, Computer Science, Bapuji Memorial School, Kanyakumari | 85% | May 2020

CERTIFICATIONS AND TRAINING

- Microsoft Azure Administrator Associate (AZ-104)
- Microsoft Azure AI Engineer Associate (AI-102)
- Microsoft Azure Fundamentals (AZ-900)
- Gemini Enterprise Agent Development Certification
- SQL and Python
- 4-day professional workshop on ThingWorx

ACHIEVEMENTS

- Initiative Taker Award, TCS: highest number of courses and certifications completed
- Academic Topper Award: first rank in university exams, 2024
- Solved 600+ LeetCode problems; mentored juniors in competitive coding; attended 10 hackathons
